**CARRIED**

**6.4 Councillor Oliwa**

No meetings to report

**6.5 Mayor St. Jacques**

DFO Fisheries Committees for Groundfish & Hake

- Regional fisheries meeting in Port Alberni; Chinook dropped 205k to 127k this year, 60k of which will go to recreation; Area G trollers hit hard with total allowable catch dropped to 49k
- Pacific Salmon Treaty fund still has \$17-18M left, originally meant to buy licenses off of various trollers; still needs to be lobbying done from coastal communities to ensure money stays related to fisheries issues and coastal workers/communities (ACRD drafting letter to speak to this); US-Canadian treaty coming to an end in 2018, negotiations to begin anew in 2016

- Mixed forecast on Coho; found warm water 'blob' 2-3 degrees above normal temperature off coast, will be bad for salmon returns; sockeye has a good forecast at 1M pieces, with possible early run; chum has low numbers and no commercial interest
- Dennis Chalmers from Province reported there is now a Seafood Secretariat regarding fisheries, chaired by Ministry of Agriculture, with other ministries represented; is a step in right direction
- Hake allocated at 114k metric tonnes; Russian embargo still hurting market, with poor sales in Brussels this year; at most, processors can use 80,000t so are looking to get joint venture factory ship to take 30k
- Shrimp at 42M pounds; lots of interest in China for shrimp; have 42 out of 132 licensed boats out fishing; Ucluelet Harbour Seafoods already processing shrimp; challenge is reducing bycatch, but Canada doesn't allow use of lights for fishing, so are looking into pilot project for alternative methods
- Don Hall from Tribal Council spoke to seriousness of getting involved in the use of remaining Salmon Treaty funds before the treaty expires; justification trial for NTC fisheries will resume in Ahousaht in Autumn 2015
- West Coast Aquatic has new centre opening at Harbour quay; looking into how they can rehabilitate the Kennedy Lake sockeye run

#### Alberni-Clayoquot Regional District

- West Coast Aquatic presented on spatial mapping, which is completed from Barkley Sound inlet to Tofino; map broken into 25 zones using Google Earth as a platform; will be able to report on activities and licensing, eel grass locations, etc.; will be interested in seeing results for Ucluelet
- Board meeting on gas tax strategic funding for Long Beach Airport, will have more information in Autumn
- West Coast Committee meeting on May 14; reported that tsunami detection device installed at airport; has greater range than anticipated at 110km, measuring surface currents; committee will connect the feed to their website - should be a good tool for surfers, too; Mark Fortune reported that cutting is virtually complete at airport, with particular focus on Grice Bay Rd

#### Groundfish Development Authority

- Special industry caucus meeting on May 20; reviewed GDA's budget
- AGM to be held May 29

#### Community Forest

- Last document with lawyer for review; once review is complete the application will go forward

#### Parks Canada

- Recent phone meeting with Jim Morgan to go over plans for the Pacific Rim Visitors Centre; have draft plan for inside, will see next week; afterwards, should have work plan and timeline
- Drafting renewal contract, to be signed soon
- Flags will be replaced this coming week

2015-149 It was moved by Councillor Oliwa and seconded by Councillor McEwen  
*THAT Council receive all committee reports.*

**CARRIED**

MAYOR Dianne St. Jacques

I purchased a mobile home in 1998 in Whispering Pines trailer park for my retirement. At that time I added a garage, built up the sheds on there existing foundations, fixed up the boardwalk and deck as best I could with materials on hand. last year I came to upgrade and renovate all existing buildings and trailer. As I was clearing all the old debris in the yard and shipping it to dump someone complained and the bylaw inspector was called he told me that the original buildings did not conform within the % bylaws, and I would have to remove nearly all additions.

I told him the addition was built 5 to 10 years before I bought the place. Since I bought this place this way I feel it unfair for me to remove any buildings as I bought it with these plans in mind.

I am an artist and have studio plans for the sheds. I have invested a lot of time and money in materials in all the improvements and am willing to have the building inspector go over them accordingly.

So I need some kind of exception from the city council as to bylaw change or a grandfather clause. I would like to discuss this at the next council meeting.

need to be put on Agenda

I wish to keep all existing decks, sheds and buildings, as each has its purpose for my retirement years, I am 61 now.

**NOTE FROM STAFF:**

Planning and Building staff have been working with both the applicant and the site's owner to resolve this very historically complicated site. A draft policy has been produced and is being reviewed.

From: Residents of St. Jacques Boulevard

Dear Mayor St.Jacques and Councillors

It has come to our attention that funding of \$20,000 has been budgeted for development of the forested park land on St.Jacques Blvd. Our current understanding is that the land is being considered for a community garden. As homeowners on St Jacques Blvd, we would like to draw your attention to some potential issues that may arise from the proposed development, and suggest a viable, exciting and unique alternative.

Firstly, The budget of \$20,000 will not be sufficient funds to create an appropriate sustainable community garden. A 120 x 60 foot, 8 foot high chain link fence for wildlife abatement alone will cost about \$14,000 leaving only \$6000 for clearing, land preparation, curtain drains, water supply, beds, soil and a tool storage shed. This estimate is from Fenceline Products Ltd. located in Parksville.

Secondly, the 2 trails bordering the lot that connect Rainforest Drive to St Jacques Blvd. have significant foot traffic. These 2 trails are used by both tourists and locals. Visitors at Blackrock frequent this trail as a path to downtown. Many tourists can be seen walking the trail with maps in hand, on their way to Peninsula Rd. via Bay St. Locals also access shopping, in particular by walking the trail to the cold beer/liquor store on the corner of Bay and Peninsula. There are many people that open their liquor and drink while walking and loitering on these trails. These trails also connect partiers from Big Beach and Brown's Beach to Peninsula Rd. causing noise problems. Walking traffic is often extra loud late at night after the bars close, especially in the summer. Any open benches that are placed on this lot will invite people to stay, sit and drink openly. The area has no street frontage and it is already difficult for the RCMP to visually patrol the area. They must park their cruisers and walk to view any activity. Community gardens do not come without conflict issues. Issues include hard partying in gardens, break-ins, heavy drinking and drugs. This area already has some issues with drugs and alcohol, so this location may not be the best option for Ucluelet.

Thirdly, the forested lot is at a higher elevation than St Jacques Blvd, so if it is clear cut, curtain drains will need to be installed on the bottom side of the trail to prevent wash outs. There is significant runoff that has washed gravel from the trails to the street, and all the houses that are below the forested lot currently have issues with water flowing across their properties. Removal of the vegetation will increase this surface runoff. If the forested land is completely cleared, the new ground cover will end up in our backyards as well as need to be replaced frequently. We also have concerns that pesticides may be used and will contaminate our own green spaces.

Another important consideration is that any composting done on site will increase issues with animals such as raccoons, bears and rodents. A community garden in Vancouver has had serious issues with rats. Bears have been shot on Rainforest Dr. in previous years for climbing decks and breaking into garbages.

Typically, community gardens are created on unforested urban lots for apartment/condo dwellers who do not have access to outdoor growing space. Ucluelet has very few apartment buildings and most long-term residents do have access to growing spaces. St. Jacques Blvd and Rainforest Drive have mostly large lots, with ample room for homeowners to use for gardening. Other community members using a garden on our street would have to drive to get here with their gardening supplies. A location closer to apartments and rental units would be much better for those who would use it most. Perhaps closer to the HUB, as an addition to it's many uses would be more practical.

In order for a community garden to be a success, it must be sustainable. It must grow from the needs and desires of the local community. A good site will be readily accessible by the users, safe, visible, have easy access to water and have the support of neighbours. A sustainable plan must also be in place for the harvesting and maintenance of a garden for it to succeed. We do support this idea of a community garden in theory for our town, however, will a community assessment be done to measure interest? Who will be responsible to oversee a garden? Who will have access? Would it be locked or open and for which hours? How would it be funded in the years to come? Who would pay for maintenance and upkeep? If it becomes an eyesore or is abandoned, who would pay for remediation of the property? How much of the property would be needed for parking? Would it have written guidelines, and if so, what is the process and penalty for violations? Would there be garbage bins and who would empty them? Would there be public restroom facilities? What would be the cost to taxpayers?

The St. Jacques Blvd. forested lot is currently covered in native vegetation which is authentic to a West Coast Rain Forest. We believe this is a wonderful chance to further showcase the beauty of our street and town. Another choice for the use of this forested land is to create a loop of walking trails with educational signage to showcase native species. Many people enjoy walking from the Wild Pacific Trail into town, and this could provide another logical and eco-friendly link. As

permanent residents, we recommend an option that sticks with our Official Community Plan, which '*respects, above all the outstanding diverse natural habitat and optimizes recreational opportunities for both our citizens and visitors alike*'. We aim to increase "Ucluelet's green space network" as it "*is recognized as a valuable community asset where residents and visitors can enjoy the outdoors and beautiful scenery on foot or bicycle, and as part of an active, healthy way of life close to nature. The purpose of the Parks and Open Space designation is to protect Ucluelet's natural beauty, enhance the District's green space system and to support a safe environment for recreational opportunities.*" (Quotes from the Official Community Plan)

We strongly feel the forested lot on St. Jacques Blvd. is a valuable asset to Ucluelet's natural beauty which we would like to protect, and develop with all possible users in mind for a sustainable future.

We look forward to an open dialogue regarding this issue.

Sincerely,

Carey McPherson

Dear Mayor & Council,

**REQUEST FOR EXEMPTION TO CEMETERY BYLAW**

Would you please consider this request to grant an exemption to the Cemetery Bylaw to allow the placing of an above-ground granite headstone in memory of my late husband, Lorenzo Corlazzoli.

As indicated on the attached diagram, the headstone would be 16" tall, 28" wide, by 6" deep, mounted on a base. We will be rounding the corners as shown in the photo. The extra size will allow us to mount a photo and have a picture of our local mountain range.

I hope that this meets with your approval, and feel that it will serve to compliment the surrounding grave sites in this area.

Yours sincerely,

Ucluelet BC V0R 3A0

Dear Mayor St. Jacques:

I am responding to your letter of March 10, 2015, concerning the Junior Canadian Rangers (JCR) Program in Ucluelet.

I very much appreciate your kind words regarding the support provided by the Department of National Defence (DND) to the Ucluelet JCR Patrol. The JCR Program owes its success to the dedication of local residents and Canadian Armed Forces members who support and provide mentorship to JCR youth. I was delighted to learn that the Ucluelet patrol is directly supported by 16 members of your community with an excellent mixture of Canadian Rangers, Adult Committee volunteers, and parents. It is also my understanding that the District of Ucluelet provides free meeting space for the JCR Patrol. This outstanding support clearly demonstrates the community's dedication and desire to ensure the continued success and growth of the JCR Program.

As you may already be aware, the Ucluelet Patrol participates in numerous activities conducted in your community, such as the Edge to Edge Marathon, Ukee Days, the Whale Festival, and Remembrance Day events. These events form part of the life and traditional-skills component of the JCR Program. Further to this, in concert with the Ucluelet Canadian Rangers Patrol, the Junior Canadian Rangers develop other integral skills such as first aid, HAM radio certification, and search and rescue. I am proud to acknowledge that Ucluelet Patrol members are becoming the leaders of tomorrow, which will make your community even more successful in the future.

The support your community provides to the Ucluelet JCR Patrol, in partnership with DND, is a sterling example for other youth programs.

Thank you for taking the time to write.

Yours sincerely,

Hon. Jason Kenney, PC, MP

Dear Minister Kenney,

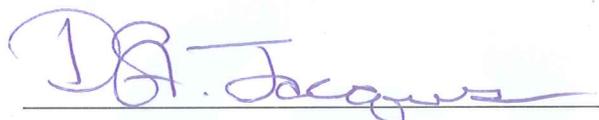

**RE: Junior Canadian Ranger Program**

On behalf of the residents of the District of Ucluelet, our Council would like to thank you and the Department of National Defence for continuing to run and support the operation of the Ucluelet Junior Canadian Ranger patrol and program in our community.

All of the effort that goes into the running and upkeep of this program in Ucluelet is greatly appreciated by our entire community, and most especially by those community members who benefit directly as part of the Junior Canadian Ranger crew. They often speak to the privilege of belonging to the Rangers, and to the excellent work that is done by them for our community and the region at-large. We understand the significant level of support that the Department of National Defence must provide to maintain the high-quality of this program in our area, and we wish to convey our sincerest gratitude to you and the DND for your continued contributions to this program.

It is our hope that the Junior Canadian Ranger Program will be one that continues to operate at this strong level in our community and that our youth especially may continue to enjoy all of the benefits of belonging to the Rangers for years to come.

Sincerely,

 Subject: Dear town planner, Re: wall mural

Greetings,

My name is Courtney Johnson and I'm writing in regards to painting a mural on the wall next to Image West (located at 1932 peninsula Rd.) In Ucluelet.

The mural is planned to be painted on July 1st, 2015 by one or more experienced artists selected by PRAS (as PRAS is sponsoring the costs of this project).

Only the wooden archways in the wall are planned to be painted. The murals will be tasteful and west coast themed. The purpose is to make a beautiful art piece to be enjoyed by the community. Please note, There is no advertising intention for image west gallery in this project.

I'm available for contact if you have any questions or concerns. Thank you very much for your time and have a lovely day.

Kind regards,  
 Courtney Johnson

**NOTE FROM STAFF:**

Pacific Rim Arts Society (PRAS) is sponsoring a mural painted on the wooden archways in an abandoned concrete wall located at 1920 Peninsula Road. The proposed purpose of this mural is to make a beautiful art piece to be enjoyed by the community.

-

Murals are controlled by the Sign Bylaw No.1060, Section 3.23.4: In order to determine and ensure appropriate visual content and suitability, approval of the design and location of a painted wall sign and/or mural is required from the Bylaw Enforcement Officer prior to erecting, painting, or applying a painted wall sign and/or mural. If the visual content is determined to be questionable by the Bylaw Enforcement Officer, the sign application shall be brought forward to Council for review.

-

Unless Council indicates that it would like more information on the proposed mural, the Bylaw Officer will work directly with PRAS on the Mural's approval.
